this book covers the major topics of modern world history in a clear and concise style after a

general introduction themes are developed in more detail with headings key words and phrases underlined with its easy to follow cross referencing and helpful problem solving approach this text is the ideal introduction to higher level study of modern world history

history can be a very useful tool in understanding why we and those we must deal with think and react in certain ways but in the wrong hands it can be dangerous and used to foster a sense of grievance or a desire for revenge eminent historian margaret macmillan is fascinated by the power of history in our thinking in the uses and abuses of history she points out some of the traps that we can fall into when assessing the present in light of the past

a spirited examination of world history told through 50 key documents by two celebrated historians and journalists with a wealth of experience between them on political social cultural and military history and today s current affairs peter snow and ann macmillan are the perfect guides to appreciating the significance of each document chapters are devoted to each of the 50 documents across the political military artistic and scientific spheres and supported by additional contemporary images the documents themselves have been researched from the collections of national archives museums libraries and private collections around the world the authors explain their criteria for selection and provide the pertinent details of each one taking us on a journey from the scripts of the earliest civilizations through to momentous speeches and papers of today

identifies historical figures explains concepts related to the past and describes important events and places in world history

the sixth edition of this bestselling book takes students on a journey through the 20th century and provides a clear overview of the key events which have shaped modern world history unrivalled in its broad coverage it surveys international relations and war from 1900 to the present day examines the rise and fall of fascism and communism around the globe explores the international affairs of the major superpowers the usa russia ussr and china assesses the experience of decolonization in india africa and latin america unpicks global

issues including economic crises and population increase chapters feature maps diagrams and end of chapter questions to support and reinforce understanding this new edition has been updated to take account of new scholarship and provide a more global approach to key chapters in modern world history key changes include new material on the second world war beginning with the outbreak of war between china and japan and touches upon italy s campaigns in east and north africa and civil wars taking place in china spain and the ukraine coverage of new historical interpretations of the events that led to the first world war new chapters on the history of the united states of america a new chapter on tsar nicholas ii and the russian revolutions of 1917 mastering modern world history is the go to textbook for secondary school students and undergraduates studying modern world history and international relations and an ideal companion for anyone with an interest in how the world got into its present state

bringing together scholars from around the world this first book in the palgrave macmillan transnational history series raises the question of how we can get away from the contemporary language of globalization so as to identify meaningful global ways of defining historical events and processes in the late nineteenth and twentieth centuries

this revised edition provides a new preface to this highly popular book the theme of the book is china s relations with the non chinese world not only political and economic but cultural social and technological as well it seeks to show that china s history is part of everyone s history in particular it traces china s relationship since the thirteenth century to the emergent world order and the various world institutions of which that order is composed each chapter discusses china s comparative place in the world the avenues of contact between china and other civilizations and who and what passed along those channels

acclaimed historian margaret macmillan explores here the many ways in which history affects us all she shows how a deeper engagement with history both as individuals and in the sphere of public debate can help us understand ourselves and the world better but she also warns that history can be misused and lead to misunderstanding history is used to justify religious movements and political campaigns alike dictators may suppress history

because it undermines their ideas agendas or claims to absolute authority nationalists may tell false one sided or misleading stories about the past political leaders might mobilize their people by telling lies it is imperative that we have an understanding of the past and avoid these and other common traps in thinking to which many fall prey this brilliantly reasoned work alive with incident and figures both great and infamous will compel us to examine history anew and skillfully illuminates why it is important to treat the past with care

a novel approach to chinese history is adopted here in that the theme of the book is china s relations with the non chinese world not only political and economic but cultural social and technological as well it seeks to show that china s history is part of everyone s history in particular it traces china s relationship since the thirteenth century to the emergent world order and the various world institutions of which that order is composed each chapter discusses china s comparative place in the world the avenues of contact between china and other civilizations and who and what passed along these channels

the history of globalization is anything but a no frills affair that moves smoothly along a clear cut unidirectional path of development eventually leading to seamless global integration accordingly scholarship in the social sciences has increasingly argued against equating the history of globalization processes and transcultural entanglements with the master narrative of the gradual homogenization of the world examining the shifting patterns of global connections has therefore become the main challenge for all those who seek to understand the past the present and the future of modern societies and this challenge includes finding a place for the nation state the studies presented here argue that looking at the nation state from the perspective of global entanglements opens the door for its interpretation as a dynamic and multi layered structure that takes part in globalization processes and plays various and at times even contradictory roles at the same time

this new edition provides a new preface to this highly popular book the theme of the book is china s relations with the non chinese world not only political and economic but cultural social and technological as well it seeks to show that china s history is part of everyone s history in particular it traces china s relationship since the thirteenth century to the emergent

world order and the various world institutions of which that order is comprised each chapter discusses china s comparative place in the world the avenues of contact between china and other civilizations and who and what passed along these channels

this book investigates the major changes in world history and world economy during the past five hundred years and explains to what extent world forces have been responsible for shaping both past and present its underlying theme is the struggle for power in which since the sixteenth century the west has prevailed many of the problems of the contemporary world including terrorism are the legacy of the period of western domination until the rise of the west and its incomparable impact on every branch of human activity the centre of the world has been in asia by the nineteenth century world power was firmly in the hands of the west america s later rise to world status was prompted by the two world wars the most prominent of the western nations the us is now blamed for all the excesses of an earlier colonial age

by investigating the major changes of world history during the past five hundred years this book provides the necessary global perspective to understand the geopolitical and geoeconomic changes facing us today we have reached a crucial transitional stage in world history in which the world will no longer be shaped by the single image of western modernism but increasingly by the image of all cultures and civilizations the need to take a world view which this book provides has become acute
